- MISO
- SPP
- PJM

## Non-RTOs

- SERTP
- SC RTP
- FRCC

# Draft Tariff Language

Open Discussion

# Additional Tariff Discussion

SIRPP

- **Southeast Interregional Participation Process**
  - ❖ Interregional process among several southeastern interconnected transmission owners (outlined in each owner's Attachment K, e.g. Southern OATT Exhibit K-2)
  - ❖ Originally established to augment the Order 890 regional participation processes outlined in neighboring planning regions

- **Southeast Interregional Participation Process**
  - ❖ The SERTP region's recent expansion to include five additional Sponsors encompasses the vast majority of the original SIRPP footprint
    - The SERTP provides for data exchange, evaluation, and economic planning studies among the expanded Sponsors
  - ❖ In addition, FERC Order 1000 interregional requirements satisfy the primary purpose of the SIRPP
    - Interregional Joint Evaluation, Data Exchange, & Coordination
  - ❖ FERC Order 1000 did not apply the economic planning principle to interregional planning activities
  - ❖ Therefore, SERTP Sponsors propose to replace the SIRPP with the FERC Order 1000 interregional procedures
